MOOSE HIDE

This PDF is a collection of stand-alone colouring sheets drawn from our workshops and workbooks. These pages are designed to give educators flexibility in how they are used—whether as a simple reflective activity, a creative break, or integrated into your own lesson plans in ways that best fit your classroom.

We hope you find these resources helpful and adaptable to your needs. For more structured learning experiences, guided discussions, and fully developed activities, we encourage you to explore our complete workbooks and lesson plans.
